"Draper Tools are proud to have been supporting EXCEL8 since they entered British touring cars and winning the title in such a short time is a testament to the team. We have been so impressed with their professionalism and enthusiasm, and they really go the extra mile for their sponsors to ensure they get maximum exposure. We've been able to interact with huge numbers of fans, who've all come away with a positive association with the Draper brand. We've also been able to gather valuable market research and increase our digital audience through the activation with EXCEL8. Connecting and collaborating with other EXCEL8 team partners along the way has been an added bonus of working with the team too. We are delighted to have agreed a further three year deal with Justina and the team, and cannot wait for the 2025 season!"

At Bobble Digital, we pride ourselves on building strong, collaborative relationships and that's exactly what we've found with the EXCEL8 team. Their passion for motorsport, professionalism, and openness to new ideas makes them a fantastic team to work with. As a company we like to partner with businesses that share the same desire for success in all aspects of life, meeting Justina Williams was a life changing moment for our CEO Manpreet Singh, her story and journey to take EXCEL8 Motorsport to the top of the BTCC which we have helped achieve in 2025, our first year of partnerships has been inspiring. Working with Justina and the team has been a delight. It was the match made in heaven we never knew we needed. Together, we've driven real growth across digital channels, and we're excited to keep pushing boundaries with them for years to come. The support Justina has provided to us as a business has really cemented our partnership. Our support to EXCEL8 in the digital marketing capacity has really helped them achieve success off the track and build the brand. A personal note from our CEO Manpreet Singh who is a big motorsport fan "until you experience the paddock hospitality, being one to one with drivers, mechanics, the team, the cars is a whole different enjoyable experience that can't be experienced any other way.
